

ED07

PARTNERSHIP · SEASON 2027 · PREPARED FOR CREALITY

BUILT, NOT GIVEN.

The dream nearly stopped over money. A 3D printer restarted it. Enrique is ten, chasing Formula 1, and funding it by designing, printing and selling what he makes. That printer is the engine of this whole story, and it could be yours.

Enrique Dias . 10 years old . Honda Cadet 200 . Hastings, England . Road to Formula 1.

EDO7

YOU ARE NOT SPONSORING A KART.
YOU ARE BUYING VISIBILITY.

A note for Creality: when the costs of racing nearly forced us to stop, Enrique asked if we could buy a 3D printer so he could make things and sell them to help pay for it. We did, and it changed everything. He now designs, prints and sells his own toys, and the printer sits at the very heart of the story we tell every week. A partnership with you would not be a logo on a kart, it would be your machine powering a real, visible journey.

Enrique is ten. He races karts in the UK, he is chasing Formula 1, and we build the whole climb in public, the wins, the crashes, the 5am starts. A Brazilian family who moved to England and decided to build the dream anyway. People follow because it is real.

That attention is what you buy. Not a sticker lost on a side pod, real content that puts your brand inside the story: in the reels families watch, in the garage, on the kart, on the suit. You become part of something people are rooting for, and that is worth more than any logo on a wall.

Right now it is small, and that is exactly the opening. The brands that back a driver at the start are the ones the audience remembers, and the ones that lock today's rates before the numbers climb. Come in now and grow with the story.

IN THE FEED

Dedicated reels and stories with your brand, in front of families who watch every lap.

ON THE MACHINE

Your logo on the kart, suit and helmet at the top tiers. The real thing, trackside and on camera.

THREE CHANNELS

Instagram now, plus live shows on YouTube and TikTok launching soon. Your brand across all three.

EDO7

THE REACH

SMALL ACCOUNT. SERIOUS REACH.

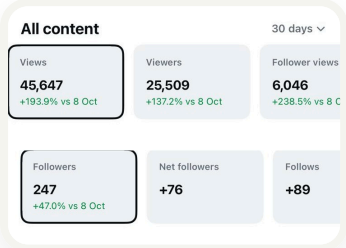

199 followers, but the content reaches tens of thousands of brand-new people every month. These are the last 30 days, and the numbers are only climbing, so the attention is cheapest right now.

25,220
PEOPLE REACHED

39,481
VIEWS

1,705
INTERACTIONS

90%
NEW / NON-FOLLOWERS

Straight from Instagram, last 30 days. Just 199 followers, but **25,220 people reached** and **39,481 views**, 90% of them brand-new, so the content travels instead of circling the same audience. The audience is mostly UK-based parents (51% UK, 22% Brazil, biggest group aged 35 to 44) with an even split of women and men, exactly the families who buy. Enrique's videos also get reposted on the family's own accounts, reaching further still.

EDOT
